With the 901 it's all about the geometry - it will make you feel more confident in all situations than any hardtail you've ever ridden. The latest 901 features exactly the same frame as the 10/10 award winning 905.

The latest 901 comes with high performance trail-ready specification including TRP's excellent 4 piston Slate Evo brakes for maximum stopping power and a RAGEi dropper post with an alloy South Paw remote to easily tune your saddle height on the move without having to move your hands.

The upgraded SRAM SX 12 speed Eagle drivetrain with a massive 11-50t cassette gives the rider a huge gear range to cope with whatever the trail has in store.
